Supplementary Fig. 1. (A) Bubble plot depicting heterogeneity of studies included in the meta-analysis. (B) Funnel plot illustrating no substantial publication bias of studies in newborns with CDH operated on within vs. at or after 24 hours of life. (C) Funnel plot illustrating no substantial publication bias of studies of newborns with CDH operated on within or at or after 48 hours of life. CDH, congenital diaphragmatic hernia; SE, standard error.
